

Animesh Singh — Resume (Head of Design)

Design Leader — AI, Mobility & Hardware + Software Products

Bengaluru, India · animeshkarnsingh@gmail.com · [linkedin.com/in/animeshkarnsingh](https://www.linkedin.com/in/animeshkarnsingh) ·

Portfolio: [add link]

Summary

Design leader who turns deep-tech AI into products people trust on the road. 9 years across mobility, fintech and SMB software, taking products from concept to deployment at scale. At Sapience Automata, owns the end-to-end experience across in-vehicle hardware, driver-facing software and fleet dashboards; built the design team and system from scratch. Promoted from VP to CXO within a year. Previously shaped core and growth experiences for [X] million SMBs at Khatabook.

Experience

Numbers in [brackets] are placeholders. Replace each with a real figure or a defensible estimate, or cut the bullet.

Sapience Automata — Bengaluru

AI-powered driver monitoring and ADAS for commercial fleets and OEMs.

Chief Experience Officer · Aug 2025 – Present (promoted from VP)

- Lead design, UX, brand and marketing across [X] products spanning in-vehicle hardware, driver alerts and fleet dashboards.
- Built and lead a design team of [X]; set up the design system and review process now used across all product surfaces.
- Shaped products from research to deployment with founders, engineering and sales, now running in [X] vehicles across [X] fleet customers and [X] OEM partnerships.
- Redesigned the fleet manager dashboard, cutting [time to review an incident / alert noise] by [X] %.
- Designed in-cab driver alerts for real driving conditions (glanceable, low-distraction, multilingual), improving [driver acceptance / alert response] by [X] %.

VP, Marketing & Product Design · Aug 2024 – Aug 2025

- Owned product UX, visual design and brand through the company's main growth phase; created the brand identity from the ground up.
- Turned deep-tech computer vision capabilities into product stories, demos and sales material used in [X] customer pitches, supporting [X] deals.

Khatabook — Bengaluru

Design Generalist · Sep 2020 – Nov 2023

- Designed core and growth experiences for a bookkeeping app used by [X] million Indian SMBs.
- Ran research-led experiments with PMs and engineers that improved [activation / D30 retention] by [X] %.
- Designed [feature name], adopted by [X] merchants within [X] months of launch.
- Designed for low-literacy, vernacular, low-end-Android users, a constraint that carries straight into in-vehicle and driver-facing design.

Instamojo — Bengaluru

Communication Designer · Dec 2017 – Jan 2020

- Built brand and product communication systems for a fintech platform serving [X] small businesses.
- Designed product visuals, marketing campaigns and in-product content across web and app.

Ogilvy & Mather — Kolkata

Design Intern · Dec 2016 – Jul 2017

Skills

- **Design leadership:** hiring and mentoring, design systems, design ops, critique and review rituals, cross-functional leadership with founders, engineering and sales
- **Product design:** B2B SaaS dashboards, hardware + software experiences, in-vehicle and driver-facing UI, vernacular and low-literacy UX
- **AI products:** designing for model uncertainty, alert prioritisation and confidence, human-in-the-loop review flows

- **Strategy and growth:** product strategy, GTM and product marketing, brand building, experimentation

Education

National Institute of Fashion Technology (NIFT), Kolkata · B.Des, Design and Visual Communication · 2013 – 2017
